WELCOME TO KOMURA

Japanese Peace Commissioner Gets Hearty Reception

UPON HIS ARRIVAL.

Fellow Countrymen and Seattle Officials Extend Courtesies to the Party, Which Soon Left For the East.

Seattle, Wash., July 21.—Baron Komura, foreign minister of Japan and one of two Japanese peace commissioners, struggled with a mass of diplomatic correspondence at the residence of the Japanese consul at Seattle. Baron Komura worked until 5 o'clock Thursday morning with cable messages and letters which reached him when the steamship Minnesota arrived at Port Townsend.

Baron Komura was welcomed to Seattle when the Minnesota received in port just before noon Thursday by more than 1000 Japanese. On a tug in the harbor a small crowd of Japanese exploded day fire works in honor of the party and a band played Japanese and American airs as a musical welcome. Mayor Kallinger, on behalf of the city, welcomed the diplomat at the gangway and a special train brought him to the city. A fixed policy has been agreed upon by the members of the delegation regarding interviews.

Baron Komura has determined not to give out any interviews in America relative to peace negotiations of the war condition. H. Sato, an unattached member of the foreign service, who is accompanying the party, has been designated as the spokesman to discuss any other matters affecting the delegation.

Mr. Sato and H. W. Denison, the American legal adviser of the Japanese foreign department, were with the Japanese ambassadors who concluded peace with China. They are the only members of the party who have enjoyed such honors in the past.

Aboard the ship on Tuesday night a farewell reception was given by Baron Komura. He and his party distributed a number of presents among the officers of the boat. The minor officials and employees who waited upon him were treated lavishly, the Chinese stateroom attendant being given a \$40 tip. Baron Komura made the presentation of the presents and insisted on personally donating them.

Baron Komura's party carries eighty pieces of luggage and about sixty of these are filled with documents needed at the conference and presents which the party will make while in America.

Acting under instructions from the state department, transmitted through the treasury officials, the baggage of the diplomatic party was passed immediately and without inspection.

Baron Komura and his suite left Seattle promptly at 8 o'clock Thursday night. They travel in private cars as the guest of President J. J. Hill. The peace party was escorted to the train by leading citizens of Seattle and by the entire Japanese association of Seattle. A heavy police guard escorted the Baron's carriage.

SUIT DISMISSED.

Property Valued at Over Forty Million Dollars Was Involved.

South McAlester, July 21.—The Missouri, Kansas and Texas railway in the Federal court for the Western district dismissed the big suit filed by the railway company some time ago in which the company claimed by virtue of the old government land grant each alternate section of land for a distance of ten miles on each side of the railway right of way.

Through the entire Indian Territory the lands involved in this suit were valued at \$40,000,000 and included South McAlester, Muskogee and other cities along the Katy's right of way.

FARMERS' UNION.

Several Hundred Delegates Attend Reunion at Tishomingo.

Tishomingo, I. T., July 21.—Several hundred delegates attended the Farmers' Union convention. J. A. Bonnestell of the bureau of soils, department of agriculture addressed the assembly. He was followed by John S. Kerr of Sherman, Tex., who spoke upon the "Commercial Orchard, Resources and Advantages of the Southwest."

Spilled Liquor.

Berwyn, I. T., July 21.—Deputy marshals spilled a quantity of liquor at this place and raided gambling houses. Eight persons were placed under arrest and sent to Ardmore, where they pleaded guilty and were fined by Commissioner Robnett.

Heavy Downpour.

South McAlester, July 21.—An unprecedented rain fell here, two inches falling within the space of forty minutes, which flooded the streets and a number of store buildings, and filled all of the neighboring streams full.

Twenty Thousand Expected.

Guthrie, July 21.—The celebration of the opening of the Kiowa, Comanche and Caddo counties will be held at Lawton Aug. 5, one day ahead of time, as the anniversary comes this year on Sunday. The country was opened in 1901. It is expected that 20,000 persons will attend the celebration.

FIVE HUNDRED FORCE

Defeated Russians Had Fullest Topographical Location.

DIFFICULT TO REACH

Despite the Extreme Disadvantages the Japanese Captured Two Defense Lines and Also Guns of Much Value.

Tokio, July 21.—A special telegram from Otaru says that the Russians defeated at Dalnie were about 500 strong, with six field and three machine guns, and taking fullest advantage of the topographical character of the district offered most desperate resistance. The Russian positions were hidden among a thick forest, and it was impossible for the Japanese gunners to make correct observation. The cannonade, however, was opened by the Japanese at 6 o'clock on the morning of July 7 and kept up until dusk. The Japanese infantry gradually gained ground, closing in on the enemy's line of defense, and awaited an opportunity for the final charge. It was nearly two hours past midnight when the enemy's first line of defense, strengthened by barricades and trenches, was taken. This success was vigorously followed up, but it was not until 9 o'clock on the morning of July 8 that the enemy was driven out of the second line of his defense and victory secured, with trophies of four field and one machine guns. The nature of the ground exposed the Japanese assailants to great disadvantage, and it is believed that owing to the short supplies of ammunition and provisions the Russians at Sakhalin could not hold out much longer.

UTTERLY UNACCEPTABLE.

Declared to Be Equivalent to Political and Economic Suicide.

St. Petersburg, July 21.—The Novoye Vremya Friday devoted its leading article to alleged Japanese peace conditions as published by the Vienna Tageblatt and Frankfort Zeitung, dwelling especially on the specifications against double tracking the Siberian railway, which, the paper declares, is utterly unacceptable in every way, being equivalent to the political and economic suicide of Russia.

Doukhobors are preparing another large emigration movement to Canada. The community of Yakutak is selling its property and preparing to leave in a body.

RECEIVES IDENTICAL NOTE.

Attitude of This Government Cannot at This Time Be stated.

Oyster Bay, N. Y., July 21.—The identical note from the Chinese foreign office to powers neutral in the pending far eastern conflict has been received by President Roosevelt. What the attitude of the United States government will assume toward China's protest cannot now be predicted. It is intimated that the matter is of such delicacy that public discussion of it in an off-hand way is just now undesirable.

Secretary Root, after taking up in a formal way the threads of the state department work in Washington, came here to consider with the president some questions now pending. He arrived here in time to take luncheon with the president. Dr. Lyman Abbott of New York came on the same train. He also was the guest of the president and Mrs. Roosevelt at luncheon.

INHABITANTS FLED.

Appearance of Japanese Warships Too Trying on Their Nerves.

Copenhagen, July 21.—A dispatch from St. Petersburg to Godsladan says private advices received at the Russian capital state Japanese warships had been sighted near Nikolavsk, at the mouth of the Amur river. Many inhabitants of Nikolavsk and Vladivostok, it is added, have fled to Khabarovsk.

Making Representations.

St. Petersburg, July 21.—Ambassador Meyer is making representations to the government regarding the British steamer Oldhamia (burned by the Russians at Urup Island) on behalf of American consignors and her cargo of oil. The ambassador is endeavoring to hasten the sitting of the prize court, but the government is without information in regard to the capture of fate of the ship.

No Interference.

Moscow, July 21.—Zemstovists assembled Thursday without interference on the part of the authorities and began a discussion of the proposed constitution.

Drank Carbolic Acid.

Marlow, I. T., July 21.—A young man, apparently about twenty-three years of age, committed suicide by swallowing carbolic acid. From papers found upon his person his name was supposed to be Clarence Carrol Mackey, from St. Louis. It is said that he has a brother at the stockyards in St. Louis.

INSURANCE

This is quite a feature of my business. I represent two strong and liberal companies, whose contracts are free from the usual numerous restrictions that some other companies have, which really have the effect of insuring the company instead of the insured. No trouble to explain the policies and quote rates. ACCIDENT TICKETS—These are adapted to persons who do not desire yearly insurance, but who wish protection on short trips, etc. I issue them without written application, taking effect immediately

SATURDAY, JULY 22.

Falls county has voted to issue bonds to build two bridges across the Brazos river.

A weed cutting, trash burning, disinfecting sanitary campaign is needed in Bryan right now. Delays are dangerous.

China's effort to butt into the peace conference has reached the ultimatum stage; and Korea says "me, too." But Japan says nay, nay.

The Houston & Texas Central is advertising for bids on "a new modern brick depot for joint use with the Santa Fe, at Navasota," according to the Navasota Examiner.

The Corpus Christi Crony says: "Hotels and boarding houses in Corpus Christi are well patronized just now. Most of the visitors are women, and such gorgeous women."

The Fort Worth & Denver City Railway company has perfected a special arrangement with the Pullman Company whereby passengers using our train No. 7, due to arrive at Denver at 11:30 p. m. daily, are accorded the privilege of remaining in sleepers at Denver over night after arrival, if desired, instead of finding it necessary to depart from same upon their reaching Denver; this arrangement being available without added expense whatsoever to patrons. This is a specially valuable arrangement in that it may be used to great advantage by parties reaching Denver as strangers, and especially by ladies traveling alone or with children, who for any reason would prefer not finding it necessary to disembark during the night; in addition to which, it will, of course, prove of advantage to all through travelers in any case where the trains referred to may be delayed in reaching destination.

Mr. Otto Litzerick has been appointed joint immigration agent at Galveston for the Gulf, Colorado & Santa Fe, Sunset Lines, Houston & Texas Central, Missouri, Kansas & Texas, Fort Worth & Denver City and Frisco system. Mr. Litzerick's duties will be confined exclusively to securing employment for immigrants arriving at the port of Galveston. Ticket agents will interview, as far as possible in their respective cities, all employers of labor, such as farmers, mill men, miners, etc., advising them of this opportunity to secure laborers, requesting such employers to communicate direct with Mr. Litzerick at Galveston, who, in reply, will advise them of the details of the working of this agency.

The Caldwell Business Men's League has contributed \$50 to start the work of making goods roads from Dime Box and Lexington to Caldwell. The people along the roads will aid with hands, teams and scrapers and co-operate with the county force to make the two roads in this county good. The long sandy section of the Hookerville road was given a 12-inch coat of clay by the co-operation of the people and county hands in this way and it is now as smooth as a street. That cost, all told, about \$1,000, counting the volunteer work, but the road is permanent. All the leading roads in Burleson county are to be systematically worked in this way.

CRUSHED WITH AN AX.

A Midnight Assassin Dealt Tom Defee a Blow on the Head.

Madisonville, Tex., July 20.—The midnight assassin got in his work last night at Midway, where some one crept into the bedroom of Mr. Tom Defee and with an ax dealt Mr. Defee a blow on the head, crushing his skull. Mr. Defee is still alive, but little hopes of his recovery. John, a brother of the injured man, was occupying the bed with Tom and was only aroused by the heavy breathing of his brother. No motive can be found for the crime. Sheriff Payne is on the scene.

IS WITH FRIENDS.

Mrs. Neibert Removed to the Sealy Hospital at Galveston.

Mrs. Carey Carr Neibert, who was the victim of a street car accident Wednesday evening, suffering the loss of one foot and a portion of the other, was Thursday afternoon removed from the Houston Infirmary to the Sealy hospital at Galveston. She being acquainted and having many friends in that institution, it was in deference to her wish that the move was made. The ambulance car was procured and the trip made to Galveston without injury to her. While the physicians have hopes for her speedy recovery, it is stated that she is not wholly out of danger.

Notwithstanding the excruciating pain which she is suffering, aside from the loss of her feet, Mrs. Neibert bears her misfortune with remarkable fortitude and has maintained a cheerful demeanor from the first. She has been the recipient of many telegrams, as well as many boxes of flowers, since the accident occurred, and this has had the effect of buoying her up and causing her to forget her injuries.

The story of Mrs. Neibert's misfortune is made doubly pathetic because of the mission which took her to the Grand Central depot when the accident occurred. She was engaged to be married to Prof. J. A. Craig, the dean of the Agricultural and Mechanical college. She had received a message that he would arrive on the Houston and Texas Central train and was requested by Prof. Craig to meet him at the depot. He arrived, but when he stepped from the train expecting to be greeted by his affianced, instead he was met by her little son, Ross, who through his tears and sobs, informed Prof. Craig of his mother's sad misfortune.

Prof. Craig had been selected as one of the judges of the agricultural exhibit at the Lewis and Clark exposition at Portland. He and Mrs. Neibert were to have been married within a few days and they were to have made their wedding trip to Portland. Prof. Craig was greatly shocked over the accident, and is almost overcome with grief.—Houston Post.

People in and about the I. & G. N. depot are much puzzled by a hole in the ground very near the middle of the street at the intersection of Main street and the cross street just south of the I. & G. N. depot. The hole was seen by the Eagle reporter yesterday and is evidently an old well which has been partially filled up and smoothed over by sand and soil washing in upon it. The supports that held the surface dirt have evidently given away recently and the surface caved in. The hole is eighteen and one-half feet deep and about three feet across the top, bowling out just beneath the surface. The soil around the top is not disturbed and this, together with the shape of the hole, shows that the surmise that it is an old well is probably correct. The street has been open thirty years or more and some of our citizens who were raised here say they never heard of a well there before. The hole was first discovered by F. E. Felder, who came very near walking into it. It is now covered with planks, and is a job for the city to fill up.

CURE FOR HAY FEVER.

E. J. Jenkins Says Hyomei Will Give Relief—Sold Under Guarantee.

The season for hay fever is almost at hand, and many people feel that they will be obliged to go away in order to avoid the sneezing, watery eyes, and other annoying symptoms of this disagreeable disease.

E. J. Jenkins wishes to announce that when Hyomei is used as a preventive, or a cure, there will be no hay fever. He advises daily treatment with Hyomei for two or three weeks before the usual time for the annual appearance of hay fever. If this is done, the attack will be prevented. However, if the preventive treatment is not started soon enough, and the disease makes its appearance, use Hyomei six or seven times daily, and relief will be given at once.

There is no stomach dosing when Hyomei is used. Breathed through the neat pocket inhaler that comes with every outfit, its medicated air reaches the minutest air cells, killing all germs and soothing and healing the irritated mucous membrane. The complete Hyomei outfit costs but \$1. extra bottles 50 cents. It is the only treatment for hay fever sold by E. J. Jenkins under a guarantee to refund the money if it does not give satisfaction.

Hooker from removal from the supreme court bench on the charges concerning his connection with appointments in the Fredonia postoffice and with the "Wirtner judgment" affecting property of the city of Dunkirk, adjoining Dunkirk postoffice building, owned jointly by him and State Tax Collector Sterns. Forty-one Republicans and thirty-five Democrats voted for removal; fifty-eight Republicans and nine Democrats against removal.

DECLARED OFF.

Strike of Chicago Lumber Drivers Has Come to an End.

Chicago, July 21.—The strike of the lumber drivers of this city has been declared off. The 600 striking employees of the lumber dealers voted on the question of ending the strike and almost unanimously was in favor of returning to their old places regardless of the action of their fellow strikers. Other local unions of teamsters involved in the long continued struggle against the Chicago Employers' association will take similar action by referendum vote if the recommendations of the Teamsters' Joint council are carried out.

AMERICAN BOYCOTT.

There Is Much Doubt Relative to Action Being Taken.

Shanghai, July 21.—About 1500 people, including heads of all principal guilds and delegates from many provinces, attended the Chinese mass meeting, which arranged to begin the boycott of American goods at once. It was distinctly announced that the action was not against the American government, whose constant kindness is fully recognized, but it was pointed out that unless Chinese showed themselves to be in earnest they would produce no effect on the California labor unions. There is still much doubt as to whether the boycott will be maintained.

SHORT SESSION.

House of Commons Will Await Decision of the Government.

London, July 21.—The house of commons sat barely half an hour on Friday, then adjourned until Monday to await the government's decision regarding future course of action in view of defeat of the ministry Thursday night on John Redmond's motion to reduce the vote for the Irish land commission. The house was packed in every part. Much excitement was visible, and there was a disposition in view of the defeat of the government that it was more serious than generally regarded in the early hours of Friday. Immediately after the house assembled Sir Henry Campbell Bannerman, Liberal leader, moved its adjournment, declaring that it would be unseemly under the circumstances to proceed with business while the government was considering its position. Premier Balfour, however, declined to adjourn the house until the bill dealing with differences of Scottish United Free church and Free church had been passed. This was quickly accomplished. The house rose and the excited members swarmed into the lobbies eagerly discussing the probable decision of the cabinet.
